

SUROJU JYOTHI KRISHNA KANTH

Electronics and Communication Engineering Student | Embedded Systems & IoT Enthusiast

sjkrishnakanth@gmail.com | +91 6304507289 | LinkedIn | GitHub | Portfolio

CAREER OBJECTIVE

Electronics and Communication Engineering student with interests in Embedded Systems, IoT, Artificial Intelligence and Product Development. Experienced with STM32, ESP32 and intelligent sensor-based systems.

EDUCATION

KL University, Vijayawada - B.Tech, Electronics and Communication Engineering, CGPA: 9.12/10.00	JUNE 2023 – MAY 2027
Sri Chaitanya Junior College - Board of Intermediate Education, Andhra Pradesh, Score: 820/1000	JUNE 2021 – MAY 2023
Atkinson High School - CBSE Board Class X, 70%	MARCH 2020

PROJECTS

Tracer – GPS Based Tracking System - Developed a NodeMCU-based GPS-GSM tracking system. - Enabled automated location updates through Gmail and WhatsApp.	Embedded Systems
Adaptive Headlight Adjustment System (AHAS) - Designed ESP32-based automatic headlight intensity control. - Improved driving safety during night conditions.	Automotive Electronics
Agro-Web Smart Agriculture Monitoring System - Integrated STM32 with Blynk and ThingSpeak cloud platforms. - Automated irrigation using smart sensors and IoT technologies.	IoT & Smart Agriculture
Bus Safety System - Developed a passenger safety system using STM32, fire and gas sensors. - Enabled automated emergency response mechanisms.	Public Safety

SKILLS SUMMARY

- Programming:** C, Embedded C, Python, Java
- Platforms:** STM32, ESP32, NodeMCU ESP8266, Arduino
- Tools:** Keil uVision, STM32CubeIDE, STM32CubeMX, MATLAB, Cadence Spectre
- Technologies:** IoT, GSM, GPS, ZigBee, RFID, Sensor Integration
- Machine Learning:** Random Forest, AI/ML Fundamentals
- Soft Skills:** Leadership, Communication, Team Collaboration, Public Speaking

RESEARCH PUBLICATION

- Alarm Fatigue System – Smart Healthcare Monitoring Platform integrating SpO2, Heart Rate and Temperature Sensors.
- Applied Random Forest Machine Learning algorithms for patient health assessment and remote monitoring.

INTERNSHIPS & TRAINING

- Efftronics Systems Pvt. Ltd. – RFID HZ-100 and ZigBee communication testing.
- Microchip Technologies – Embedded Systems, Artificial Intelligence and Machine Learning Training.
- Cadence Spectre Certification.

LEADERSHIP & ACTIVITIES

- Secretary, Student Activity Center (SAC) Council, KL University.
- President, Art Club, Student Activity Center (SAC), KL University.
- Core Committee Lead, IEEE Sensors Council Society, KL University.
- Organized technical workshops, cultural events and student engagement activities.

CERTIFICATIONS

- Microchip Technologies – Embedded Systems Training.
- Microchip Technologies – Artificial Intelligence and Machine Learning Training.
- Cadence Spectre Certification.
